Industrial Adhesive Tape Specialists

SGS

20+Years/Experience of OEM&ODM.

High Temperature Resistance Tape

Polyimide Tape/Kapton Tape

Code : 100110
Base material: Polyimide film
Adhesive: silicone glue
Thickness: 50U 55U 60U 80U 100U
Temperature: 260°C/60 mins
Application: Mainly used for coating paint electroplating shielding protection, high temperature resistance, acid and alkali resistance, no residual adhesive.
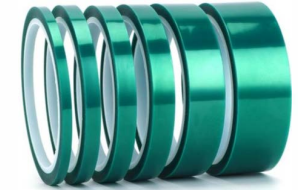

Polyester Silicone Tape

Code: 100120
Base material: Polyimide film
Adhesive: silicone glue
Thickness: 50U 55U 60U 80U 100U to 250U
Temperature: 220°C/30mins
Application: Mainly used for coating paint electroplating shielding protection, high temperature resistance, acid and alkali resistance, no residual adhesive.

Use Effect Display

Oven over tin

High temperature protection for reflow soldering

3D printing nozzle

Transformer use

PCB circuit board protection

Insulation wrapping use

scope of application

High temperature protection

PCB protection

Paint screen

Anodizing of aluminium

High Temperature Resistance Tape

Plasma Thermal Spraying Cover Tape

Code: 100130
Base material: High quality glass fiber cloth
Adhesive: silicone glue
Thickness: 170U 190U 280U 300U
Temperature: 800°C/60 mins
Application: Mainly used in plasma spray masking protection, supersonic shielding protection and flame spray shielding protection, arc spraying work covered protection, semiconductor
melt cover protection, airlines maintenance center, air force base, textile machinery parts manufacturing, printing machinery manufacturing.

The Explosion Spraying

Supersonic Flame Spraying

Plasma Spraying

Cold Spraying

The Arc Spraying

Hot Spraying

Mylar Tape

Code: 100140
**Base material**: Polyester film
Adhesive: Acrylic glue
Thickness: Accept custom
**Temperature**: 130°C
Application: It is used for insulation wrapping of various kinds of motors and electronic components such as transformers, motors, capacitors and high voltage isolation between main board circuit and housing of switching power supply.
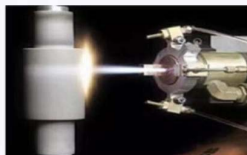

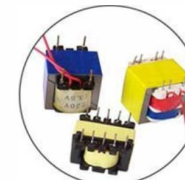

Transformer
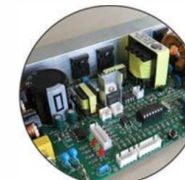

electronic component

Motor

Capacitor

Power switch board

Circuit board

High Temperature Resistance Tape

FIberglass Cloth Tape

Code： 100150

Glass cloth tape is a white glass cloth tape with a high-temperature thermosetting silicone pressure-sensitive adhesive. It is designed for use in 600-volt dry location applications motors, and transformers with and without varnish coating.

Feature：

H-class high temperature resistant 468°F (260°C)
Nice dielectric strength
Insulation and solvent-resistant
Silicone adhesive removes cleanly with no glue residue.
Abrasion resistance and good mechanical strength

battery protect

Electroplating welding

electric motor

Electronic component

Fiber Glass Thermal Conductive Tape

Code: 100160
Adhesive ： Acrylic
Size: 100u/300u* 20mm*30m or customized Temperature resistance: 25°C - 160°C
Application: Used for attaching heatsinks to CPU GPU, high power LED,Video Card RAM, DDR. Memory Modules and other power Semiconductors
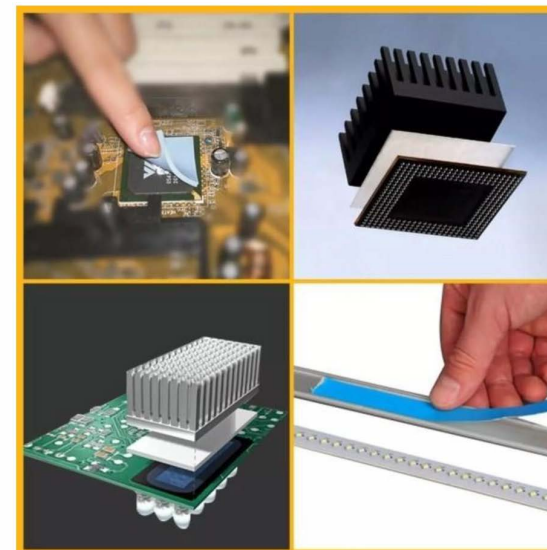

Cloth Tape

Single Sided Cloth Carpet Tape

Code : 101110
Adhesive : Natural rubber/Hotmelt
Size: 1020mmx500m (Jumbo
          size) 50mmx50m or
          customized (Roll size)

Application :
carpet seams merger, heavy packaging, sealing, repairing, binding books, marked with color points, waterproof packing, cooling pipe, surface protection, etc.

Double Sided Cloth Carpet Tape

Code: 101120
Adhesive : Natural rubber/Hotmelt
Size: 1020mmx500m (Jumbo
          size) 50mmx50m or
          customized (Roll size)

Application:
Carpet hold-down specially designed for convention&exhibitions General purpose uses in manufactureand construction
Multi-purpose uses for general mounting and holding.

white   yellow   brown

Cloth Tape

Cloth Duct Tape

Code : 101130
Adhesive: /Natural rubber/Hotmelt
Size : 1020mmx500m (Jumbo size)
50mmx50m or customized
(Roll size)
Application:
Industrial ducts sealingor jointing .
automotive edge protection
during abrasive
processes – whether hand sanding, machine sanding or sand blasting.

silver	black	red	green
light green	blue	light blue	yellow
pink	brown	purple	white

Tent repair | Pipe seal | Paste carpet
Hotel Carpet layout fit | DIY | Floor marking
Carton sealing | Warning of window/door | Bundled wires
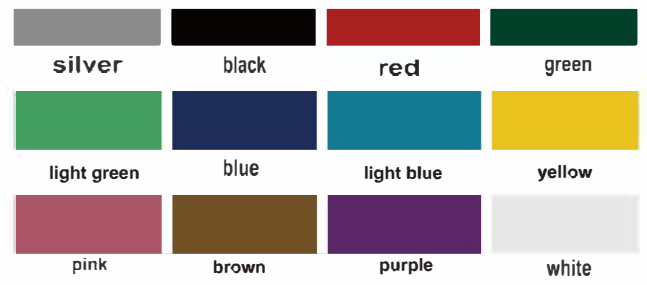

Fluorescent Neon Spike Tape

Code : 101140
Feature & Benefits
High performance adhesive system.
Highly conformable to irregular surfaces and shapes.
Weather resistant and abrasion resistant.
Hand Tearable.

Applications
Protecting and anchoring wiring in photography and film.
Bookbinding.
Marking and labeling equipment cases and boxes.

TAPE ART

Matte Gaffer Cloth Tape

Code : 101150
Adhesive : Natural rubber/Hotmelt
Size: 1020mmx500m (Jumbo size) 50mmx50m or customized (Roll size)
Application:
Used for holding wiring, lighting, stage props and color code, for A/V, TV, photography, theatres(no light reflection), motion picture industry, bookbinding.

Camouflage Cloth Tape (Bionic Tape)

Code : 101160
Adhesive : Natural rubber/Hotmelt
Size: 1060mmx1000m (Jumbo size) 50mmx50m or customized (Roll size)
Application: Used for armies, hunters, photographers and others to work outdoors.

Aluminum Foil Tape　RoHS, REACH

Aluminum Tape With Liner UL181A, UL723

Code : 201110
Adhesive : Solvent / Water base
Size: 1020mm(1040mm,1200mm,1232mm)x1000m (Jumbo size)
　　　50mmx50m or customized (Cut roll size)
　　　RoHS, REACH Standard
Application :
Used for the seam bonding of all aluminum foil composite materials, the sealing of the puncture points of the thermal insulation and the repairing of the damaged parts;
The thermal insulation and water vapor sealing of various thermal insulation cotton boards, pipes and air ducts;
Pasting and fixing of metal pipes of household appliances such as refrigerators and freezers.

Aluminum Tape Without Liner

Code : 201120
Adhesive : Solvent
Size : 1020mm(1040mm,1200mm,1232mm)x1000m (Jumbo size)
　　　50mmx50m or customized (Roll size)
Application:
It is suitable for fixing the radiating fins in refrigerators and freezers, eliminating and shielding the electromagnetic interference of electronic products.

HVAC Low Temperature Aluminum Foil Tape

Code : 201130

Adhesive : Solvent

Temperature:-40 to 120°C

Size :1020mm(1040mm,1200mm,1232mm)x1000m (Jumbo size)
50mmx50m or customized (Roll size)

Application:

Thermal conductivity-holding copper cooling tubes
to refrigerator panels to help maximize cooling
efficiency.

Reinforced Aluminum Foil Tape ULC-S102

Code : 201140

Adhesive : Emulsion base/Synthetic rubber

Size :1020mm(1040mm,1200mm,1232mm)x1000m (Jumbo
size) 50mmx50m or customized (Roll size)

Application:

Used as heat insulation and water vapor barrier layer for
steel structure buildings or central air-conditioning ducts,
and also as sound absorption and heat insulation materials
for high-rise buildings, theaters, concert halls, etc.

Fiberglass Cloth Composite Aluminum Foil Tape

Code : 201150

Adhesive : Solvent/Synthetic rubber

Size : 1020mm(1040mm,1200mm,1232mm)x1000m (Jumbo size) 50mmx50m or customized (Roll size)

Application:

Used for the splicing of pipe seals, heat insulation and water vapor barrier of HVAC ducts, heating and cooling water pipes, especially for pipe sealing in the shipbuilding industry.

## Woven Fabric Mesh Composit Aluminum Foil Tape

Code : 201160

Adhesive : Solvent/Synthetic rubber

Size : 1020mm(1040mm,1200mm,1232mm)x1000m (Jumbo size) 50mmx50m or customized (Roll size)

Application:

Used for the higher bonding strength requirements or the interface and seam fit with the veneer material of the water vapor barrier layer.

PVC Electrical Insulation Tape

Code : 401110

Adhesive: Natural rubber
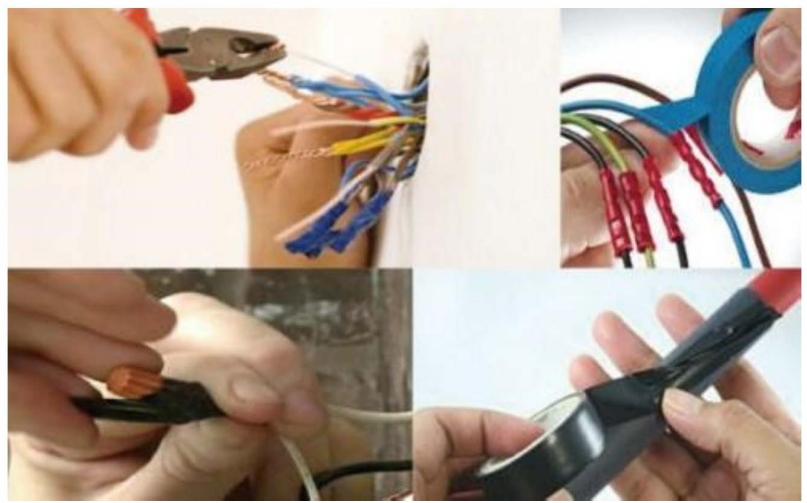

Size:130u/150u* 1250mm*10m/20m/33m
 (Log size)
 130u/150u* 19mm x 10m / 20m / 33m(Roll size)

Option:UL, BS EN 60454-3-1, RoHs Certificated

Application: Applying to electric wire, cable winding, transformer, power distribution equipment, automobile circuit,electrical engineering, household electrical, motor, capacito

Color:

| black | red | white | green | blue | silver |
| yellow | orange | purple | transparent | yellow&green | |
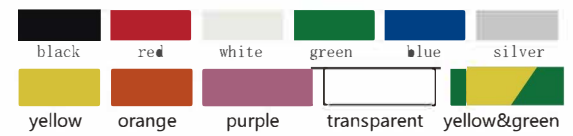

PVC Anti Slip Tape

Code : 401120

Adhesive: Pressure sensitive adhesive

Size: 70u/80u*1250mm*10m(Log size)
        70u/80u*50mm*5m(10m)or customized

RoHs Certificated

Application: Used for sticking on the bathroom, stairs, walking areas, ships, irregular concave and convex surfaces, construction vehiclesetc.

It plays a role of anti slip and can avoid fall accidents.

Color:

| luminous | yellow | yellow&black | green | blue |
| brown | red&white | orange | white | black |

| Painted Wood | Tile | Concrete | Glass |
| Laminate | Plastic | Metal | Polished Stone |
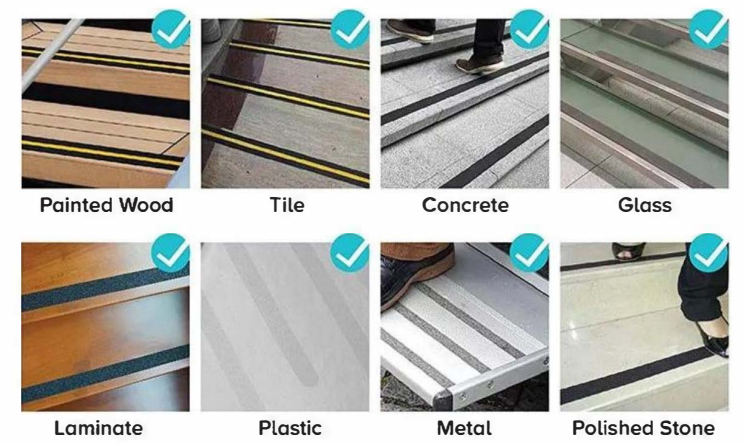

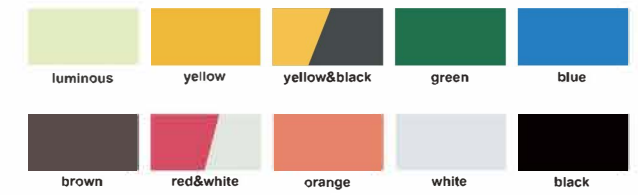

PVC Tape

PVC Pipe Wrapping Tape

Code： 401130

Adhesive： Natural rubber

Size： 150u/180u*1250mm*30m(Log size)
150u/180u*48mm/50mm*30m or
customized

RoHs Certificated

Application:
Seal duct joints in heating and air conditioning systems
Prevents air leakage and stops dirt, dust and fumes from entering
system Adheres to metals, most plastics or glass fibre materials

Color：
silver   black   white

PVC Floor Marking Tape

Code : 401140

Adhesive: Natural rubber
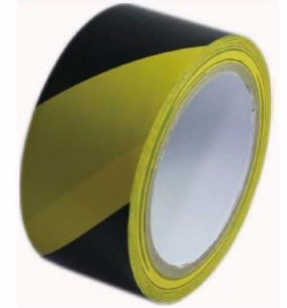

Size: 150u/180u*1250mm*30m(Log size)
150u/180u*50mm/75mm*30m or customized

RoHs Certificated

Application:
Used on plant and warehouse floors to highlight
physical hazards, to warn people of dangerous
areas and to delimit areas according to their functions

Single Color:
red   white   blue   yellow   green   orange

Double Color:
green&white   red&white   black&yellow

Non- FR Fleece Wireharness Tape

Code: 501110(similar to Tesa 51608)

Adhesive :hotmelt

Temperature resistance: 105 °C.

Hand-tearable fleece cloth single coated with a high tack adhesive, widely used for wire harness.

Application: Widely used for the wire harness in automotive industryProtecting critical electrical wires and cables from harm or damage.

Easy to tear by hand, waterproof and anti-aging.

FR Polyester Cloth Wire Harness Tape

Code: 501120(Similar to Tesa 51036)

Adhesive: hotmelt

Temperature resistance(long time):
 -40 °C to 105 °C(0.18mm thickness),
-40 °C to 125°C(0.25mm thickness)

Standard size: 0.18mm/0.25mm*19mm*25m or customized Cloth automotive wire harness tape is using cotton cloth as backing material and coated with pressure sensitive adhesive.

Feature: Strong adhesion, strong pollution resistance on the surface, anti aging, anti corrosion.

Application: Used for wrapping automotive wire harness with high temperature resistance, position of need to reduce noise and wear resistance of auto.

FR PVC Wire Harness Wrapping Tape

Code: 501130

Adhesive :Natural rubber， both shiny and matte surface

Size:80u/100u/130u/150u* 1250mm*10m/20m/33m

    (Log size) 130u/150u* 19mm x 10m / 20m /

    33m(Roll size)

UL, BS EN 60454-3-1, RoHs

Certificated

 Application: Professional electrical

insulation， Automobile wire harness

and jacket.
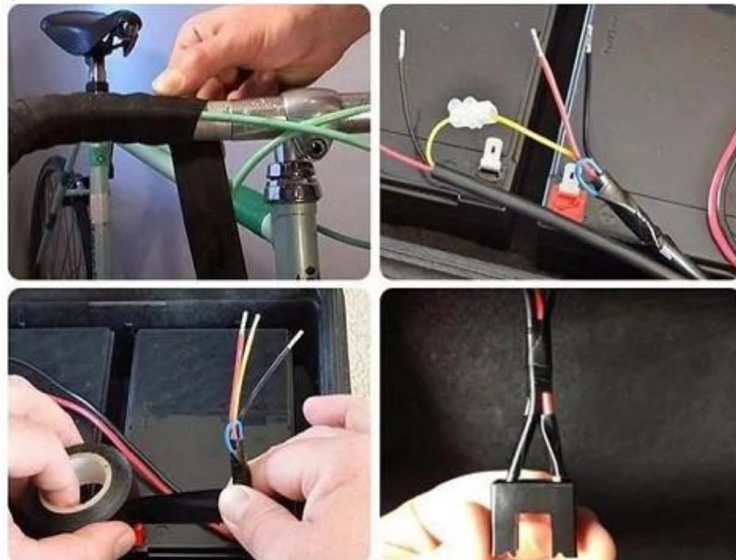

Halogen-free PE film Wire Harness Tape

Code： 501140 (Similar to Tesa 62309)

Material: Halogen-free PE film with an acrylic adhesive. Designed for the passenger compartment for standard wrapping up to a temperature class of 125°C for 3000 hours.

Construction Seaming Tape

PROCUREMENT SERVICES FROM
BDFS
BuyDirectFromSuppliers.com
Manufactured in Mexico-China-Brazil-USA-Bahrain
Brent Gilbertson   Mobile: 678-361-5559
Managing Partner/Founder   Brent@BuyDirectFromSuppliers.com

PE Stucco Masking Tape

Code: 991151
Use to mask Windows and doors during masonry job
Strong adhesion ideal for stucco
Weather and UV resistant polyethylene tape

PE Tuck Sheathing Tape
Epoxy ResinTape

Code: 991150
Feature：
Excellent resistance to UV &Weathering
Prevents air infiltration
Provides permanent bonding.
Application： Seaming, splicing, sealing, and repairing materials used for moisture barriers, both inside and out.
It helps to maximize energy efficiency by sealing the gaps, cracks, and crevices where air can easily enter the home and ultimately affect your heating and cooling costs.

PVC Orange Plastering Tape

Code: 991152 (**Same as Scapa 6993**)

PVC plastering tape for protecting and masking during painting, plastering and varnishing tasks on smooth surfaces such as plastic, wood (primed, painted) and aluminium in interior and exterior areas

We have both smooth surface and embossing surface at Economic Grade and REACH grade.

Application： For easy stripping and insulation.it's widly used in Construction and high power site needing strong adhesive.

Butyl Rubber Tape (Waterproof Leakage Tape)

Self-Fusing Rubber Tape

Code:990001
Carrier: Rubber   **Glue:**Butyl
Thickness: 0.4-2mm Width:5-800mm
Length:≤20M

EPR Based can be option

Application:

Self-fusing rubber tape is Used on automotive, plumbing,hose, electrical;boats, marine application, aquariums, liquid containers, extreme temperature and pressure applications; sealing and patching application.

Waterproof Rubber Mastic Tape

Code:990002
Size:2in*0.065in*10ft/51mm*1.65mm*3m

Property	Value
Tensile Strength	1.16MPa
Ultimate Elongation	900%
Viscosity(steel plate)	55N/50mm
Viscosity(PE)	55N/50mm
Melting point	A grade pass
Dielectric loss	0.008
Working Temperature	90℃
Emergency overload	130℃
Water absorption	0.49%
Water vapor percolation rate	<0.26g/(100inch 2.24h)
Ozone resistance test	pass
Heat exposure	130℃
UV resistance	pass

Using Steps

1.Uncover the release sheet.
2.Stretch up to 120%.
3.Wrap in a tense state.
4.Wrap with PVC insulation tape for protection

Model	Adhesion (mm)	Tensile Strength (Mpa)	Elongation (%)	Disruptive Voltage (KV/mm)
J10	≥2N/mm	≥1.5	500	1-6KV
J10-1	≥2N/mm	≥1.5	500	>6KV
J20	≥2N/mm	≥1.5	500	6-10KV
J20-1	≥2N/mm	≥1.5	600	>10KV
J30	≥2N/mm	≥1.5	600	10-35KV
J30-1	≥2N/mm	≥1.5	600	>35KV
J50	≥2N/mm	≥1.5	600	35-50KV
J50-1	≥2N/mm	≥1.5	600	>50KV

Butyl Rubber Tape (Waterproof Leakage Tape)

Butyl Windsreen Sealant

Code: 990003
Color: Black/Grey
Size:φ3mm*4M/4.5M/5M, φ5mm*10M ,
φ6mm*8M
φ10 MM *4M/4.5M/5M, φ8mm*4M

Instruction:

This tape is specially developed for car lights，it is
mainly made by butyl rubber with a variety of
other environmental

AIDS.The environmental friendly solvent - free sealant is produced by special
process.It is the most advanced automotive light insulation shock absorption,
waterproof. It can withstand a certain degree of displacement and
deformation, and has good tracking.

Application:

Widely used for car door, window screen and headlight installation.

Feature:

Good stretching, shrinking and sealing performance
Strong viscosity, waterproof, no smell,aging resistance, weather resistance,
UV resistance, sticky and soundproof.

Double Sided Rubber Butyl Tape

Code: 990004
Thickness : 0.5 to 20mm
Width Range: 4 to 550mm
Length: 600mm to 40M
Colour: grey ,black,white

Technical data of double-sided butyl tape

ITEM:YC-6011		CONDITION	double-sided butyl tape	STANDARD
BASIC COMPOSITION			MONO ELEMENT BUTYL-LATEX	
HEAT RESISTANCE		90±2℃. 2h	NO FLOWING AND NO CRACKLING	ASTM C792-93

Butyl Rubber Tape (Waterproof Leakage Tape)

PROCUREMENT SERVICES FROM
BDFS
BuyDirectFromSuppliers.com
Manufactured in Mexico-China-Brazil-USA-Bahrain

Brent Gilbertson
Managing Partner/Founder

Mobile: 678-361-5559
Brent@BuyDirectFromSuppliers.com
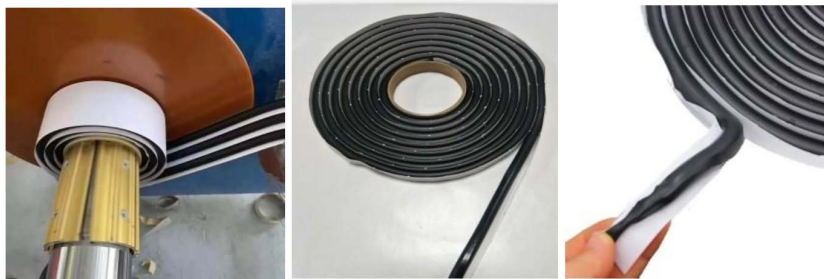

Aluminum foil Butyl Rubber Tape

Code: 990005
aluminum foil waterproof butyl tape is made of butyl rubber, PIB as basic material. Polyethylene film, aluminium foil as surface finished material. It has strong adhesion to various material surfaces, and has excellent weather resistance, aging resistance and water resistance,
sealing, shock absorption and
protection on the surface of the adhered.

Sun room seal   Color steel seal   Window seal   Crack seal   Pipe mouth seal

Single Sided Non-Woven Butyl Tape

Code： 990006
Thickness： 0.6 to 10mm
Width Range： 20 to 550mm
Length： 600mm to 40M
Colour： grey ,black,white

PRODUCT APPLICATION

• Splicing of tunnel waterproof board.

• The overlap between the light steel roof color steel plate and the daylighting board and the sealing of the joint of the gutter.

• Steel plate warehouses are sealed and waterproof, doors and windows, concrete roofs, and ventilation ducts are sealed and waterproof.

• Installation of PC board and endurance board.

• Sealing of containers。

Caulk Strip

Code： 990007

A: PE +Butyl Adhesive

B:PVC + Acrylic glue /Tissue

Size：

12.8 mmx3.35m

22 mmx3.35m

38 mmx3.35m

41 mmx3.35m

60 mmx3.35m

80mmx3.35m

Customized as you need

Application

Closestool

Bathtub

Bathroom Sink

Kitchen Gas Cooker

Wall Corner

The Sink

CAULKSTRIP

Tub Surround sealer trim

water-Tight Seal · Mildew Resistant

Simply Press In Place · Seals Over Existing Grout

1. Clean and dry the corner.

2. Heat the caulk strip by hair dryer in cold weather, Peel off the backing tape.

3. Fold the caulk strip in half, make the strip centre line and corner coincide exactly.

4. Press the caulk strip, make it stick tightly to the wall surface and cut off the extra strip.

Double Sided Tape

Double Sided Nano Tape

Code: 990008

Material: Acrylic

Thickness: 0.5mm/1mm/1.5mm/2mm

Width: 2cm/3cm/5cm   Length:1m/2m/3m/5m

**Color:** Transparent/red/blue

Feature

Removable& Reusable&Traceless

No sticky residue

Multipurpose-indoor&outdoor,Home use/Car use/For office/Advertising paste

Supplied to FBA warehouse experience

Double Sided Polyester Tape

Code: 990009

Thickness:
30u,50u,80u,100u,125u,160u,205u.

Temperature Resistance: -20°C to 130°C

Description

Double Sided Polyester Tape is the PET(polyester) film as carrier with acrylic adhesive evenly coated on both sides and then lined with red released film.

Acrylic adhesive PET film
Acrylic adhesive
Red release film
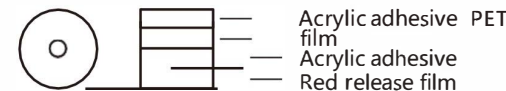

Feature

- Anti-static Clean
- remove
- Strong tensile strength
- Stable and reliable

Application

Automotive ABS plastic parts

Used in the automotive industry to secure automo- tive ABS plastic parts or other decorative parts.

Furniture decorative parts

Widely used in the furniture industry, it can assemble decorative parts.

Electronic components

Used to bond cell phone battery compartments, lenses and other electronic components.

Double Sided Tape

Double Sided Tissue Tape

Code:990010
Adhesive: Acrylic
Size:1020mmx1000m(Jumbo size)
50mmx25m/50m or customized(Roll Size)

Product / Data	Double Sided Tissue Tape general usages	Double Sided Tissue Tape high temperature	Black Double Sided Tissue Tape general usages	Black Double Sided Tissue Tape high temperature
Backing	Tissue			
Adhesive	Hot melt adhesive / water acrylic / solvent acrylic adhesive	Solvent acrylic adhesive		
Adhesive color	Transparent / yellow / black			
Liner	White / brown / light yellow / yellow glassine paper, etc			
Application	General purpose, for leather, shoes positioning, for computer embroidery, garment positioning, for sealing plastic, paper bags, for sticking wall paper & other paper crafts，for nameplates, die cutting, paper splicing, for foam lamination,for plastic objects&film switches mounting,for objects sticking in TV and etc.			

Practical use

Professional use of computer embroidery

Fixed seams for clothing and shoes

Used in the electron lcs industry

Double Sided Sandblasing Masking Protection Tape

Code: 990010
Adhesive: Hotmelt
Size:25mm*12m or customized
Temperature resistance: -20°C - 80°C
Taking durable silicone rubber backing and strong acrylic adhesive,
can meet requirements of heavy duty blasting impact protection and shot peen masking

Key characteristics & applications
•Acrylic adhesive with 8N/2.5CM peel adhesion, excellent tack
•Suitable for use on irregular surfaces,no edge warping
•High strength, puncture proof and its
resistance of breakdown capacity can be
58.8/CM2, without residue
•Applied for metal pre-treatment such as shot peen and sandblasting protection in Aviation, Power station and Oil and gas drilling fields.

Foam Tape

Double Sided PE Foam Tape

Code: 601110
Backing: PE foam
Adhesive: Hot melt / solvent acrylic
PE Foam Density (kg/m³):
32/48/64/96/192/240kg/m³ Liner
Color:
Paper liner

| white | light yellow | yellow glassine | green | green trunk |

Film liner

| red | green | blue |

Application: cushioning, shockproof and sealing; For pipeline wrapping for air conditions, auto trim attachment, door sealing strips, etc.

Double Sided EVA Foam Tape

Code: 601120
Backing: EVA foam
Adhesive: Hot melt / solvent acrylic   Liner **Color:**

Paper liner

| white | light yellow | yellow glassine |

Film liner

| red | green | blue |

Application: For holding hooks, racks and photo frame; For die cut, cushioning, shockproof and sealing; For pipeline wrapping for air conditions, auto trim attachment, door sealing strips, etc.

EPDM Foam Tape

Code: 601130
Backing: EPDM foam
**Adhesive:** Hot melt / solvent acrylic

Color:

Paper liner

White   yellow glassine

Film liner

red   green   blue

Foam Color

black   white   grey

Application: For sealant and die cutting; for die cut, cushioning, shockproof and sealing; for pipeline wrapping, for air conditions, auto trim attachment, door sealing

Reflective Tape

Code: 701110

Material: PET、PVC、PC、PMMA

Size: PET、PVC、PC、PMMA
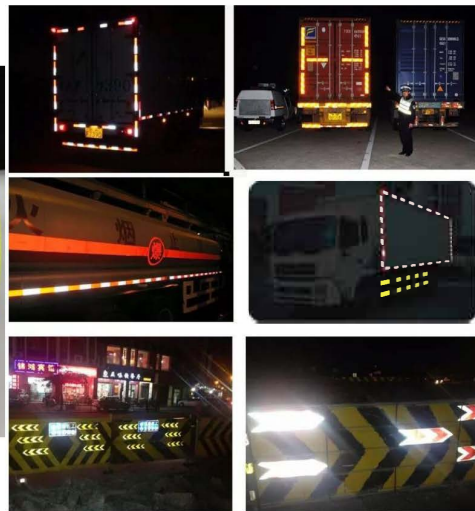

Cloth Warning Tape

Code :701120

Adhesive : Natural rubber/Hotmelt
1020mmx500m (Jumbo size)
50mmx25m or customized (Roll size)

Application:
Exhibition and area identification/ Area division/Special area warning

Applications

Factory workshop

Parking lot

Security area

Warehouse planning

PVC Warning Tape

Cod: 701130

Thickness: 0.13mm ,0.15mm

Size: Customized

MULTI-SCENARIO OPERATION

Epoxy floor division

Wood ground division

Channel railing warning

Garage export planning

Tile floor division

Luminous Glow Tape

Code: 701140

Natural glow in the dark, no need of power energy, energy conservation, environmental protection, bright warning labels can also beautify the environment effect. Also has the waterproof, sunscreen, strong corrosion, self-adhesive, etc; And avirulent insipidity, no radioactive elements; Construction is convenient and simple.

PE Warning Tape

Code: 701150

PE warning film is mainly used for marking dangerous areas and special instructions, such as traffic, painting, construction working site, the fields of law enforcement, investigation zones and utilities.

Carpet Antislip Tape

Code : 801130

Adhesive: Acrylic solvent adhesive

Size: 0.28mm*48mm*10m

Surface Texture:

The surface texture of the tape has a deep texture, which has a strong anti-skid effect on the ground, waterproof and wear-resistant.

Sticky Surface:

Use PVE or PET or aluminum base material, plus glue and release paper to form a sticky surface, durable and anti-aging.

Usage: Fix carpet to prevent falling due to carpet movement.

Scenario shows

Cat Training Tape

Code: 801120

NON-TOXIC AND 100% PET SAFE
Using the best glue adhesive in the world, Cat Scratch Tape adhesive has no taste of impurities, it passed the quality certification to ensure it is healthy and family safe. This cat scratch deterrent is non-toxic, hypo-allergenic and will not put your pets in any harm. It is non-toxic and safe for your pets.

SUIT FOR ALL COUCH

Silk

Wool

Crepe Paper Masking Tape

Code: 801140
Adhesive : Rubber
Size:990mm*1500m or
1250mm*1500m(Jumbo size)
48mmx25m/30m or customized(Roll Size)
Temperature Resistance
60°C 80°C,120°C, 150°C with or without UV
Other color just for usual masking at usual circumstance. **Advantage:**High temperature resistance,anti-chemical solvent,Tear without residual glue
Usage: Widely used in interior decoration, household appliances painting,Car painting, upholstery, masking art writing.

Wall

Car

Furniture

Packaging

Painting

Jointing

Washi Tape

Code : 801150
Adhesive: Hotmelt
Size:15mm*10m or customized
Features:
100%Brand new and high quality.
Enjoy Creative Crafts: Grid Craft Tapes For Decorating Masks, Creating Personalized Greeting Cards. Decorate your Cellphone or Making Mini Flags For Cupcakes Etc.
An Ideal Gift For Kids.DIY Washi Tape: Great Decorative Washi Tape For Arts And Crafts, Gift Wrapping, Scrapbooking, Photo Album, Journal, Planners, Cards, Frames, Walls, Holiday Party Supplies Etc. 14 different colors : light blue, dark blue, white, black, khaki, brown,
green, blue, gray, green white, rice white, orange, pink and purple red; Self sticky tapes roll.

Application: Decorative masking tape for all purposes like planners, art project, DIY scrapbooking craft tapes, and best for gift wrapping.
